EDUCATION TECHNOLOGY / DATA MANAGEMENT / SCHOOL LEADERSHIP

I have spent my career working in Virginia public schools—as a teacher, technology coordinator, school leader, and now division director. In my current role, I manage the systems that schools rely on for student information, enrollment, scheduling, reporting, and day-to-day operations. I work directly with PowerSchool and SQL, and I know how much accurate data matters to the people using it. I bring both hands-on technical experience and an understanding of how data is collected and used at the school level.

EXPERIENCE

Radford City Public Schools | Radford, Virginia

Director of Information Technology and Communication | July 2023–Present

- Lead the division's technology and communications work, including PowerSchool, student and staff data systems, online registration, and applications used across schools.
- Write and troubleshoot SQL queries and PowerSchool reports to check enrollment, schedules, courses, grades, verified credits, attendance, and staff records.
- Work with school staff to track down data problems, determine what caused them, and make corrections before they affect reporting or school operations.
- Support state reporting and related data checks by reviewing records, comparing reports, and helping staff understand what needs to be corrected.
- Manage system changes and new tools, including online enrollment and family communication platforms; develop instructions and train staff when processes change.
- Lead training for teachers, administrators, and office staff on PowerSchool, online registration, reporting tools, and changes to division systems. Create guides and walk staff through new procedures.
- Help set technology priorities, plan budgets, support grant requirements, and contribute to the division's six-year strategic plan.

Teacher and School-Level Leadership Roles | 2011–June 2023

- Taught STEM, Project Lead the Way, physical science, and elementary grades in Radford City Schools, including John Dalton Intermediate School and Belle Heth Elementary School.
- Planned hands-on instruction, assessed student progress, worked closely with families, and helped students build confidence in mathematics, science, and problem solving.
- Took on school leadership responsibilities in addition to classroom teaching, working with colleagues and administrators on instruction and school needs.

Virginia Department of Education Training and Technical Assistance Center at Virginia Tech | Blacksburg, Virginia

Technology Coordinator | 2006–2010

- Worked with teachers and school divisions to improve instruction and accessibility, including classroom observations and practical support for students with disabilities.
- Served on Virginia's Assistive Technology Priority Project, helping develop statewide guidance and procedures for assistive technology in classrooms. Helped create an online resource to make that guidance accessible to educators.
- Coordinated the statewide AT & AugCom conference and provided training and technical assistance to educators working with students with disabilities.

Montgomery County Public Schools | Blacksburg, Virginia

Elementary Teacher | 2010–2011

Pulaski County Public Schools | Pulaski, Virginia

Teacher and Special Education Technology Specialist | 1999–2006

Implemented IEP Online for division special education staff, including distributing laptops and developing and delivering training for 34 teachers. Created a web-based Standards of Learning Toolkit later used by other Virginia divisions.

United States Air Force

Civil Engineering | 1991–1995

TECHNICAL & MANAGEMENT SKILLS

PowerSchool SIS administration • SQL queries and reporting • Student data checks and reconciliation • Enrollment and registration systems • Scheduling and course records • State reporting support • Data troubleshooting • Staff training and documentation • Google Workspace for Education • Technology budgeting and planning • Cross-school coordination

EDUCATION

M.S., Elementary/Middle School Education (Mathematics and Science) — Old Dominion University

B.A., Interdisciplinary Studies — Old Dominion University

Postgraduate studies, School Administration and Supervision — Radford University

Certificate, Assistive Technology Applications in Education — California State University, Northridge

PRESENTATIONS & PROFESSIONAL DEVELOPMENT

Conference presentations: National Council of Teachers of Mathematics (Washington, DC); Virginia Society for Technology in Education (Roanoke); Educational Technology Leadership Conference (Williamsburg); TechKnowledgy Conference (Virginia Beach); AT & AugCom Conference (Blacksburg); Southwest Virginia Annual Leadership Conference (Abingdon); and Computer Science Conference (Radford).

RECOGNITION

Roanoke-Blacksburg Technology Council Educator Award • Golden Apple Award • Walmart Teacher of the Year • Radford Teacher of the Month (twice)
