Human Resources Office, New River Community College
5251 College Drive
Dublin, VA 24084-5251

Dear Hiring Committee,

I am writing to express my sincere interest in the Dean of Student Services position at New River Community College. My 20+ years of experience in education, leadership, and program development has cultivated a dedication to student success, strategic innovation, and the educational mission of providing access to transforming educational opportunities.

Throughout my career, I have taken on roles that demanded not only effective instruction but also leadership in program development, collaboration, and strategic planning. As both an educator and instructional leader in multiple disciplines, I have worked with a diversity of students to ensure they are able to define their academic and career path clearly. Furthermore, I have held positions supporting the leadership team in a K-12 environment, where I played a role in developing strategic plans on a divisional level and contributing to resource allocation and budget decisions.

Developing systems that support student success has been a consistent theme throughout my career. I have been an integral part of maintaining the integrity of grant-funded initiatives, including the Computer Science program and Project Lead the Way. My work in long-range planning has also provided me opportunities to link the needs of the student population to the goals of a school division, strengthening my leadership skills in teamwork, managing projects, and the use of data-driven decision-making.

The New River Community College's mission and focus on student success along the entire spectrum, from admissions to retention, through placement and employment, immediately resonated with my own professional philosophy. I look forward to the possibility of developing initiatives focused on student success based on student and instructor feedback.

My leadership style is transformational, always collaborative, and striving for continuous improvement. I am adept at building trusting relationships across groups of individuals, strengthening collaborative efforts on behalf of the entire team, and fostering an environment that supports both the staff and student population. My abilities and vision complement the direction of New River Community College.

Thank you for your time and consideration. I look forward to the opportunity to further discuss how I can serve NRCC to help continue its success.

Sincerely,
Brian Dye
